

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF QUEENSLAND FRUIT FLY IN BLUEBERRIES**

PERMIT NUMBER – PER88174

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 25 JULY 2019 TO 31 MAY 2029

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LIMITED
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

DANADIM INSECTICIDE (APVMA No. 56454)

Containing: 400 g/L DIMETHOATE (an anticholinesterase compound) as the only active constituent.

RESTRAINT:

- DO NOT use to control pests that are resistant to organophosphorus insecticides as treatment may be ineffective.
- DO NOT apply by misting or fogging equipment.
- DO NOT apply with air blast spray equipment unless operators are protected by engineering controls such as enclosed cabs fitted with appropriate air filters.
- DO NOT use open mixing/loading systems for aerial application.
- DO NOT use in home garden.

Directions for Use:

Crop	Pest	Rate
Blueberries	Queensland Fruit Fly (<i>Bactrocera tryoni</i>)	75 mL / 100 L water

Critical Use Comments:

- DO NOT exceed a maximum number of 7 applications per crop per season, with a minimum retreatment interval of 21 days between consecutive applications.
- Dangerous to bees. DO NOT spray any plants in flower while bees are actively foraging.
- Product is poisonous if absorbed by skin contact, inhaled or swallowed. Refer to safety directions on the product label.

Re-Entry Period:

- DO NOT enter treated areas until the spray has dried, unless wearing cotton overalls buttoned to the neck and wrist (or equivalent clothing) and chemical resistant gloves. Clothing must be laundered after each day's use.
- **Glasshouses and other confined areas:** DO NOT re-enter until spray deposits have dried and areas has been thoroughly ventilated.

Withholding Period:

Harvest: Do not harvest for 1 day after application.

Jurisdiction:

QLD only.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 07/05/2024 – Permit Holder updated. Permit expiry extended to 31/05/2029. Permit issued as Version 2.
