**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF A REGISTERED AGVET CHEMICAL
PRODUCT FOR CONTROL OF FRUIT FLY IN FRUIT FLY HOST PLANTS FOLLOWING
THE COMPLETION OF HARVEST**

PERMIT NUMBER – PER13859

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 9 FEBRUARY 2015 TO 31 MAY 2030

Permit Holder:

HORTICULTURE INNOVATION AUSTRALIA LIMITED
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Products to be used:

ACCENSI DIMETHOATE 400 SYSTEMIC INSECTICIDE (APVMA No. 63470)

PLUS OTHER REGISTERED PRODUCTS

Containing: 400 g/L DIMETHOATE as the only active constituent.

RESTRAINT:

DO NOT treat any host plants until after final harvest for the given season within a designated block.

DO NOT apply to ever bearing fruit crops.

SPRAY DRIFT RESTRAINTS:

Specific definitions for terms used in this section can be found at apvma.gov.au/spraydrift

DO NOT allow bystanders to come into contact with the spray cloud.

DO NOT apply in a manner that may cause an unacceptable impact to native vegetation, agricultural crops, landscaped gardens and aquaculture production, or cause contamination of plant or livestock commodities, outside the application site from spray drift. Wherever possible, correctly use application equipment designed to reduce spray drift and apply when the wind direction is away from these sensitive areas.

DO NOT apply unless the wind speed is between 3 and 20 kms per hour at the application site during the time of application.

DO NOT apply if there are hazardous surface temperature inversion conditions present at the application site during the time of application. Surface temperature inversion conditions exist most evenings one to two hours before sunset and persist until one to two hours after sunrise.

Directions for Use:

Crop	Pest	Rate
All fruit fly host crops	Fruit fly	75 mL / 100 L water

Critical Use Comments:

- DO NOT apply more than 2 applications per host crop following harvest.
- Apply as a foliar and/or ground cover spray to both fallen and retained fruit.
- Treatment may only be applied to host plants within a designated block following the completion of all harvesting operations in that block. Designated blocks of a property should be mapped and have a unique identifier name, code or number. Irrespective of the numbers of host plants treated within a block the entire block is subject to the following conditions:

1. Signage of treated areas/blocks

The property owner or lessee (or their representative) **MUST** erect warning signage at common entrance/access points to treated blocks. The signage **MUST** state that the fruit has been treated for fruit fly and must not be harvested.

2. Notification to pickers/harvesters

Where crops and areas have been treated under this permit and harvesting operations are continuing in other blocks at a property, the owner or lessee (or their representative) must brief all persons performing harvesting operations and advise that any fruit remaining in blocks treated under this permit must not be harvested.

3. Prevention of spray drift to adjacent crops/blocks

DO NOT allow spray drift onto adjacent crops/blocks that are still being harvested or that bear fruit (irrespective of growth stage) intended for harvest at a future time. Particular attention should be paid to immediately adjacent blocks where harvesting activities are still being or are to be conducted in the season.

4. Record keeping

The spray contractor, property owner or lessee (or their representative) MUST make a record of the blocks treated under this permit. The records must include a map of the property, detailing blocks and their unique identifier, date of application and name of the person who made the record. The records must be made on the same day of application and maintained for a period of two years.

The records MUST be made available to the APVMA upon request.

Withholding Period:

Harvest: Produce treated under this permit must not be harvested, collected or supplied for human or animal consumption.

Grazing: Do not graze treated areas.

Safety Directions:

Poisonous if absorbed by skin contact, inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Will damage eyes and skin. Repeated exposure may cause allergic disorders. Avoid contact with eyes and skin.

When opening the container and preparing the spray wear cotton overalls buttoned to the neck and wrist, a washable hat, a PVC or rubber apron, elbow-length chemical resistant gloves, a face shield and impervious footwear.

When using the prepared spray, wear elbow-length chemical resistant gloves.

If applying by hand by vehicle mounted low pressure equipment wear cotton overalls buttoned to the neck and wrist, elbow-length chemical resistant gloves and a half face-piece respirator with organic vapour/gas cartridge or canister.

If clothing becomes contaminated with product remove clothing immediately. If product on skin, immediately wash area with soap and water. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use wash gloves, face-shield, respirator and contaminated clothing.

Re-Entry:

DO NOT enter treated areas until the spray has dried, unless wearing cotton overalls buttoned to the neck and wrist (or equivalent clothing) and chemical resistant gloves. Clothing must be laundered after each day's use.

Jurisdiction:

All States and Territories.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit. Unless otherwise stated, the use of the product must be in accordance with the product label.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: Permit amended to update holder details. Permit version 2 issued 26 April 2018.

26/06/2024 – Permit expiry extended to 30/06/2025. Permit issued as Version 3.

15/05/2025 – Contemporary spray drift restraints added. Permit expiry extended to 31/05/2030. Permit issued as Version 4.
